**[www.metos.com](http://www.metos.com)**

**Metos Marine** is one of the leading suppliers of galley and laundry equipment to vessels worldwide. Our equipment and furnishings are used in more than 3000 ships including ice breakers, naval ships, cargo vessels, passenger ferries and offshore. In-house production of most equipment guarantees consistent quality control, efficient material handling and short delivery times. Layout design and training are also part of our services. The Metos Marine agent network covers all important shipbuilding countries.

### Long term commitments on Spare Part Services

Our centralised handling of both products and spares enables us to provide high availability and cost efficiency for thousands of different spare parts. Weekly we send many shipments of spares all around the world. Even for products which no longer are being produced, we guarantee spare part availability for 10 years.

### Technical Support and Training

For our international business partners and subsidiaries we have dedicated personnel to provide technical support and spare part services. For our partners we can provide individual installation and service training both centrally in our factory or at the customer's site. Along with new products and product developments we provide continuous product training for our own technical support personnel. This way we can make sure that our customers receive accurate and up-to-date technical support and service.

### Technical Documentation

Our technical documentation group provides the availability of high standard technical documentations in English.

Metos has been granted with ISO 9001 quality and ISO 14001 environmental certificates.
