## Secure Refrigeration

Issue 17

### There is an easier way to keep refrigerated contents safe and secure!

### MULTIPOLAR® Safe and secure, shared refrigeration, with lockable compartments

Rieber's Multipolar® range is an ingenious series of undercounter and freestanding refrigerators with four to 16 lockable compartments, perfect for every secure refrigeration requirement.

Ideal for students, staff, patients, workers, all communal living areas and anywhere there is a requirement for personal shared refrigerated storage...

- Storing personal medicines requiring refrigeration.
- **Nut allergies? Dairy free? Gluten free?** Multipolar is great for keeping special meals separate for people with allergies and intolerances.
- Retaining meals, drinks and any products requiring refrigeration - keeping them safely chilled until they are required.
- Keeping personal refrigerated goods separate in communal shared areas.

“When it comes to talking refrigeration, everyone else talks about maximizing capacity or boosting environmental credentials,” says BGL Rieber MD Gareth Newton.

“However, we also talk about offering refrigeration for the individual and improving welfare, while maintaining personal security.”

BGL Rieber supplies Multipolar® units to:

- Care facilities, including hospitals and care homes
- Offices and corporate cresses
- Universities, schools and nurseries
- Secure facilities
- Communal shared accommodation

Multipolar® can be fitted under a worktop or freestanding - to accommodate whatever space you have available.

## A size for all your needs

The Multipolar® range is based on a varied range of cabinet sizes. From undercounter units housing 4 or 6 compartments, which can be fitted underneath worktops, to the full size, free standing models featuring 8 to 16 compartments, in a range of cabinet sizes to suite all requirements.

Each compartment within the Multipolar® unit has its own key, with a master key retained by the relevant manager.

The outside housing is made of galvanized steel plating, which is electrostatically powder coated and impact resistant. All standard models are white, stainless steel is available on request.

The inner chamber is made of hygienic, fruit acid resistant polystyrene (PS).

Sturdy door hinges and an all-round magnetic chamber seal guarantee safety in day-to-day use.

The energy-saving and powerful cold compressor produces very little noise or vibration, thanks to a special bearing application.

And what's more, Multipolar® is equipped with an automatic defrosting and condensation water evaporation.

Temperature range approx. +2 °C to +12 °C

## Also available as a freezer

### ■ POLAR FREEZER MP7

With 7 lockable compartments, the Rieber Polar Freezer is perfect for any communal area, or situations needing shared, safe and secure freezer storage.

Robust, stainless steel grid baskets and containers provide a choice of storage options and allows you to store loose frozen food.

Operate from minus -14 °C to minus -28 °C.
